

CAP - Exercise: Code generation for procedures and functions (chapter 8)

Laure Gonnord

Nov. 2016

Generate the code for the following program :

```
begin
  var x,z:int
  procedure p is
  begin
    var y:int
    y := 5;
    z := x+y;
  end
  x:=3;
  call p;
  log(z);
end
```
